Board of Property Maintenance Appeals

Recommendation for Condemnation

Re: 306 N. Norton St.
Parcel #66-06121.000
Property Owner: Rodney C. Spray
Condemnation Hearing – Tuesday March 14, 2023, 5:30pm
Location: City Hall Council Chambers, 40 Public Square

* Structure Unfit for Human Occupancy 1303.02(a)

The structure at the property referenced above is in an increasingly deteriorated condition. In my opinion it is a seriously blighted property in our community. As seen in the pictures the siding and roof are in extremely poor condition. The siding is covered in mold and mildew with some holes. The roof is also covered with mold, moss, and mildew which causes increased deterioration. There are several broken windows. Although the owner has claimed he intends to rehab the house, nothing has been started to date. It is in my opinion that this structure is unsafe and unfit for human occupancy and recommend it be condemned and ordered to be rehabilitated to make it safe and bring it into compliance with the City's Property Maintenance Ordinances.

The decision of Recommendation for Condemnation is based on the following sections of the codified ordinances:

Structure Unfit for Human Occupancy 1303.12(a)

Structure Unfit for Human Occupancy. A structure is unfit for human occupancy whenever the Property Maintenance Enforcement Officer finds that it is an unsafe structure as defined in

Section 1302.01(38), it is unsanitary, vermin or rat infested, contains filth or contamination, or lacks ventilation, illumination, sanitary or heating facilities, or contains unsafe equipment.

1302.01(38) "Unsafe structure" means one that is dangerous to the life, health, property or safety of the public or the occupants of the structure by not providing minimum safeguards to protect or warn occupants in the event of fire, or because such structure contains unsafe equipment or is so damaged, decayed, dilapidated, structurally unsafe or of such faulty

Board of Property Maintenance Appeals

Recommendation for Condemnation

Re: 621 N. Sandusky St.
 Parcel #66-0202-000
 Property Owner: Lawrence W. Fawcett (DECEASED)
 Condemnation Hearing – Tuesday March 14, 2023, 5:30pm
 Location: City Hall Council Chambers, 40 Public Square

*** Structure Unsafe for Human Occupancy 1302.01(a)**

The structure at the property referenced above is in an increasingly deteriorated condition. In my opinion it is a seriously blighted property in our community. The owner of this property passed away in June of 2019 and there is no family involved with ownership of the property. The roof is deteriorated and collapsing on the south side and the west rear of the structure. The deck on the back is completely collapsed. There are several broken windows. The inside is completely uninhabitable. It is in my opinion that this structure is unsafe and unfit for human occupancy and recommend it be condemned.

The decision of Recommendation for Condemnation is based on the following sections of the codified ordinances:

Structure Unsafe for Human Occupancy 1302.12(a)

Structure Unsafe for Human Occupancy. A structure is unfit for human occupancy whenever the Property Maintenance Enforcement Officer finds that it is an unsafe structure as defined in Section 1302.01(3)(b), it is unsanitary, vermin or rat infested, contains flammable or combustible material, or lacks ventilation, illumination, sanitary or heating facilities, or contains unsafe equipment.

1302.01(3)(b) "Unsafe structure" means one that is dangerous to the life, health, property or safety of the public or the occupants of the structure by not providing minimum safeguards to protect or warn occupants in the event of fire, or because such structure contains unsafe equipment or is so damaged, decayed, dilapidated, structurally unsafe or of such faulty construction or unstable foundation, that partial or complete collapse is possible.
