### Narrative statements

*establishing and substantiating that the variance conforms to the following standards:  
(initial beside the number to signify agreement; provide narrative for #3 & 4)*

HJY 1) The granting of the variance shall be in accord with the general purpose and intent of the regulations imposed by this Zoning Ordinance on the district in which it is located, and shall not be injurious to the area or otherwise detrimental to the public welfare.

HJY 2) The granting of the variance will not permit the establishment of any use which is not otherwise permitted in the district.

3) Describe the special circumstances or conditions, applicable to the land or buildings for which the variance is sought, which are peculiar to such land or buildings and do not apply generally to land or buildings in the area, and which are such that the strict application of the provisions of this Zoning Ordinance would deprive the applicant of the reasonable use of such land or building. There must be deprivation of beneficial use of land.

The front porch is very small. They would like to add the addition to have a larger usable front porch. It would also add to the beauty and character of the home. The home at 109 E Sugar St. has steps that appear to be 4-5 ft away from the front property line.

4) Explain the proof of hardship created by the strict application of this Zoning Ordinance.

See 3 above

✓ 5) The granting of the variance is necessary for the reasonable use of the land or building, and the variance as granted is the minimum variance that will accomplish this purpose.

✓ 6) The proposed variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public safety, or substantially diminish or impair property values of the adjacent area.

✓ 7) The granting of the variance requested will not confer on the applicant any special privilege that is denied by this regulation to other lands, structures, or buildings in the same district.
