NEW BUSINESS

Fatima Foy-408 Seventh Ave

Mark Huhn-17311 Gambier Road

Discussion about cutting trees on the west end levee

Permission for engineering to explore and apply for grants for the WWTP major rehabilitation project

Asking for a recommend to city council to pre-authorized the loan application to OEPA DEFA-According to the OEPA we must provide them new authorizing legislation before we can request the loan. We will need the city Council approval by spring 2025. Ideally when we ask to do the award for the CMR we would ask for the loan legislation at the same time.
